

the economy of art

TALK SERIES

RG takes part in the project -Economy of Art- of the cultural association Riesa efau as a co-supervisor. Within the project -Economy of Art- relations between art and economy are to be examined and brought up for discussion, in particular the effect of contemporary art on enterprises. In the context of meetings between April to November, a dialogue concerning

questions on art and development takes place. The discussions serve as an exchange of experience and knowledge transfer in a smaller circle. Topics, among others, are: The conception of the artist in the economy. The view of the entrepreneur: Competence of artists in the enterprise; capability of art in enterprises.
